FG-S

Light Utility Vehicle

The FG-S is a truck based SUV developed by FGFS and designed for field operations in the most challenging terrain.

The FG-S is fitted with Blackout and Silent functions, and a suspension upgrade to 3500 kg.

The diesel engine has been recalibrated to run on all fuel, including jet fuel (JP8). Based on Ford's next generation Everest, a highly capable off road vehicle with wide track, high ground clearance and 800mm water wading capability, it is equipped with Ford's latest engineering technology.

Available in 4x2 and 4x4 with high and low range from a 2.0L diesel engine.

3500KG

Towing

3500KG

GVM

728KG

Payload

80L

Fuel Tank Capacity

BLACKOUT SYSTEM

At the flick of a switch all vehicle lights and sound sources are turned off. This system is designed for stationery observation or active surveillance.

JP8 CAPABILITY

The JP8 fuel conversion allows the FG-P to run on all grades of Diesel fuel and even jet fuel.

3.5T GVW

The FGFS suspension upgrade ensures enhanced handling and long term durability under heavy loads and extreme driving conditions.

Vehicle Details		Vehicle Dimensions		Modification Standard Features
Model	Ford Everest Limited	Length (mm)	4914	Black Out System
